# INTERNATIONAL PRELIMINARY EXAMINATION REPORT

I.	I. Basis of the report								
1. With regard to the elements of the international application:*									
		the international application as originally filed							
	X	the des	scription:						
		pages	1-6	, as originally filed					
		pages		, filed with the demand					
		pages	, filed with the letter of						
	$\square$	the cla	ims:	•					
		pages	2-5	, as originally filed					
		pages	, as amended (togethe						
		pages		, filed with the demand					
		pages	, filed with the letter of	10 September 2003 (10.09.2003)					
	$\nabla$	the dra							
		pages	•	as originally filed					
		pages	1/4-4/4	, as originally filed , filed with the demand					
		pages	, filed with the letter of						
	<u> </u>	•							
	LJ '	•	ence listing part of the description:						
		pages	Cladenial de Laure C	, filed with the demand					
		pages	, filed with the letter of						
2.	the in	regard to the language, all the elements marked above were available or furnished to this Authority in the language in which international application was filed, unless otherwise indicated under this item.  e elements were available or furnished to this Authority in the following language which is:							
	H		nguage of a translation furnished for the purposes of international search (under R aguage of publication of the international application (under Rule 48.3(b)).	.ule 23.1(0)).					
	H		aguage of the translation furnished for the purposes of international preliminar	w evenination (under Rule 55.2 and/					
	,	or 55.3	3).						
3.		minary e	to any nucleotide and/or amino acid sequence disclosed in the internativamination was carried out on the basis of the sequence listing:	itional application, the international					
	H		ned in the international application in written form.						
	H		ogether with the international application in computer readable form.						
l	H		ned subsequently to this Authority in written form.						
	H		ned subsequently to this Authority in computer readable form.						
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.							
	لــا		atement that the information recorded in computer readable form is identical urnished.	I to the written sequence listing has					
4.		The arr	nendments have resulted in the cancellation of:	!					
			the description, pages						
			the claims, Nos.	· ·					
			the drawings, sheets/fig						
5.		This rep	port has been established as if (some of) the amendments had not been made, so the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**	ince they have been considered to go					
	* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.16 and 70.17).								
	** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.								

#### INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/DE 02/00168

V.	Reasoned statement under Article 3 citations and explanations supporting	5(2) with regard to novel ag such statement	ty, inventive step or industrial appli	cability;
1.	Statement			
	Novelty (N)	Claims	1-5	YES
		Claims		NO NO
	Inventive step (IS)	Claims	1-5	YES
		Claims		NO NO
	Industrial applicability (IA)	Claims	1-5	YES
		Claims		NO

#### 2. Citations and explanations

1. The closest prior art document, US 4 819 820 A, discloses a container (1) on whose outer walls (4, 5, 6, 7) hollow bodies (11) for receiving locking devices are disposed for the purpose of locking the container to similar containers, wherein the container (1) on its outer sides (4, 5, 6, 7) has means (25) which engage means (32) of neighbouring containers, position the container relative to the neighbouring container or containers in a defined manner and horizontally lock the containers to each other.

The concept according to which the means are in the same form and disposed on all four vertical outer sides for the purpose of achieving a simpler container structure has not yet been suggested or disclosed in the searched prior art.

Claim 1 is therefore novel and inventive.

 Consequently, dependent claims 2 to 5 are likewise novel and inventive.

- 3. Claim 1, and hence all the dependent claims, are unclear within the meaning of PCT Article 6 because the word "on" (German: "an"), which should be the second word in claim 1, is missing.
- 4. Contrary to PCT Rule 5.1(a)(ii), the description does not cite document US 4 819 820 A or indicate the relevant prior art disclosed therein.
- 5. Contrary to PCT Rule 5.1(a)(iii), the description is not consistent with the claims.
- 6. The features of the claims are not followed by reference signs placed between parentheses (PCT Rule 6.2(b)).
- 7. Claim 1 has been duly drafted in the two-part form, but some features should not have been included in the characterizing part since they were disclosed in document US 4 819 820 A (see paragraph 1 above) in conjunction with the features indicated in the preamble (PCT Rule 6.3(b)).
